

Ahlstrom-Munksjö is a global leader in fiber-based materials, supplying innovative and sustainable solutions to customers worldwide. Our offerings include decor paper, filter media, release liners, abrasive backings, nonwovens, electrotechnical paper, glass fiber materials, food packaging and labeling, tape, medical fiber materials and solutions for diagnostics. Combined annual net sales are EUR 3 billion and we employ 8,000 people. The Ahlstrom-Munksjö share is listed on the Nasdaq Helsinki and Stockholm. The company was formed on April 1, 2017 through the merger of Ahlstrom Corporation and Munksjö Oyj. Read more at www.ahlstrom-munksjo.com

Ahlstrom-Munksjö HVAC and High Efficiency Air Filter Media

Purifying Air
Protecting People

Purifying air, protecting people and critical processes

Quality of air in buildings is a major public health problem and an important safety parameter when referring to production processes. Ahlstrom-Munksjö filtration media for Heating, Ventilation and Air Conditioning (HVAC) applications, protect people and processes from harmful pollutants in ambient air, reducing the risk of airborne contamination and increasing the comfort of life.

An extended and complete portfolio, matching every market's needs

Our product portfolio has significantly expanded and now covers a full product offering, both for HVAC and High Efficiency Air Applications.

- ☑ **Glass HVAC:** A complete range of glass micro fiber media, from coarse to ePM1 rating (ISO 16890), with excellent filtration performance. Now served from three manufacturing sites in EMEA.
- ☑ **Molecular HVAC:** Our portfolio is dedicated to applications where odors and VOC's need to be removed from the ambient air. Up to 400g/m² of activated carbon and excellent pleatability.
- ☑ **Trinitex® HVAC:** Unique Trinitex® based product offering with high synthetic content. Delivering low pressure drop, high dust holding capacity and superior mechanical resistance, even in wet conditions.
- ☑ **Glass HEA:** A complete range of Glass micro fiber media covering EPA/HEPA/ULPA efficiencies, with outstanding filtration performance. Proven ability to customize to meet most demanding market needs.

The benefits of Ahlstrom-Munksjö HVAC and HEA product offering:

- ☑ **Complete range of mechanical efficiency available** - from coarse to U17 (EN1822).
- ☑ **Wide technological know-know enabling unique filter media design** - from full glass to full synthetic, from single to multiple layer construction.
- ☑ **Proprietary Trinitex® technology offering unique solutions to specific segments** - molecular filtration, media durability even in wet operating conditions, gradient structure.
- ☑ **Proven ability to customize** - using extensive and demonstrated know-how.
- ☑ **Expanded production platform** - delivering security of supply and flexibility, through three manufacturing sites in EMEA.
- ☑ **Extensive reach** - through the global presence of Ahlstrom-Munksjö.
